INSTALLATION INSTRUCTION FOR FIXTURE 6358-177

WARNING! SHUT OFF THE POWER AT FUSE OR CIRCUIT BREAKER.

MOUNTING THE FIXTURE

1. Shut off the power supply at the fuse box or circuit breaker box. Remove the old fixture from ceiling. Including the old cross bar.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Take care not to lose any small parts necessary for installation.
3. Thread 2 mounting screws (E) through the mounting screw holes from the back of the universal mounting plate (A) **correctly** (The Side Without "GND" mark).
4. Attach the universal mounting plate (A) to the outlet box using the Outlet Box Screws (B). The side of the Universal mounting plate marked "GND" must face out.
5. Follow the wiring instructions carefully (See Fig.2).
6. Attach the fixture main body onto the outlet box by protruding 2 mounting screws (E) through the mounting screw holes on the fixture back plate (J), then tighten it with the cap nuts (I).
7. Thread the nipple (D) onto the hex nut (F) **completely**, then secure with hex nut **snuggly**;
8. Insert the glass shade (G) and steel washer (N) over the nipple (D), and lock it in place **with** hex **nut** (O).
9. Insert the cap (P) over the nipple (D), and **secure** with finial (Q).
10. Install the light bulb in accordance with fixture's specifications. DO NOT EXCEED THE MAXMUM WATTAGE RATING!

Wiring (See fig.2)

1. Connect the electrical wires as follows. Connect the black wire from the fixture to the black (HOT) house wire. Connect the white wire from the fixture to the white (Neutral) house wire. Make sure all the wire nut was secured. You may wrap the connections with electrical tape. If your outlet box has a ground wire (Green or Bare Copper) connect fixture's ground wire to it. Other wise attach the bare copper fixture wire to the green ground screw on the mounting bar.
2. Tuck the wire connections neatly into the wall junction box.
